HISTORY

more than a century of pioneering tradition

Growing, supplying and exporting premium fresh fruits and vegetables since 1900, **Turkmenoglu** family is the inspiring founder of Mateks Incorporated.

Mateks was founded in 1984 to manage global export operations of fruits and vegetables; later becoming the innovative spark of the group.

The company is now dedicated to producing sophisticated dried fruits, fruit ingredients, healthy snacks; and run by the 4th generation.

FROM THE LEADER OF SUSTAINABLE AGRICULTURE

Exporting Quality Since 1984

Mateks has been exporting the best quality fruits and vegetables, promoting the Mateks brand all around the world since 1984.

The family's legacy on agriculture and food safety is one of the fundamental pillars Mateks is built upon.

Custom Made Innovate Approaches

Our technology designed for customized production combined with the expertise of our R&D team will help you create innovative solutions and products for your company.

Our experienced team will directly work with you on developing specific recipes or re-producing your patented formulas under full discretion.

Healthy & Natural World of Fruits

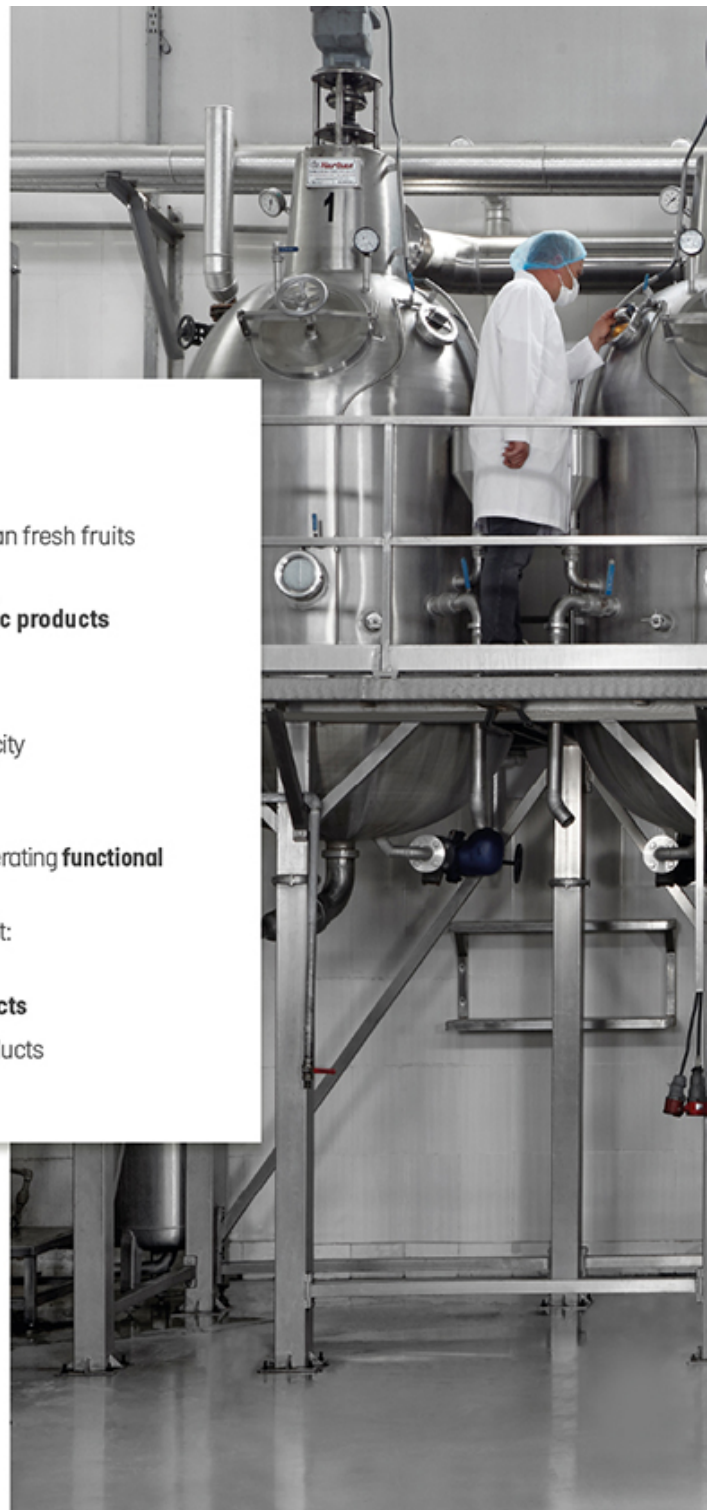

Mateks' products consist of natural, healthy, and traceable ingredients that do not contain any artificial colorant or sweeteners.

We are driven by the idea of a healthier world and happier customers...

WHY MATEKS?

R&D SUPPORT

We have a great R&D team working to develop different forms of products in line with the needs of our customers, taking Mateks one step further every day.

TAILOR MADE PRODUCTION

We produce products that are "Just for you" with Mateks' "tailor made" approach. The production is shaped carefully to meet your specific needs, offering the best products that are tailored just for you.

DELIVERY ON TIME

Timing is the key element in any production process. In that regard, our planning department schedules our production line meticulously based on pre-determined delivery dates and arranges shipments accordingly.

ACCESSIBLE SUPPORT TEAM

We acknowledge constant communication is crucial to creating the most suitable product tailor-made just for you. Our experienced support team is available for your inquiries 24/7.

PRODUCT RANGE

fruit **Puree Pieces**

Fruit puree pieces are obtained by mashing the fruits, drying them, and cutting them in different sizes according to customer preferences.

100 g of fruit puree pieces contain vitamins, minerals, and nutrients equivalent to approximately 400 g of fresh fruit. Our products do not contain any artificial colorant, flavor, or preservatives.

Depending on your needs and preferences, our recipes can be enriched with protein, fiber, vegetable & fruit mix or popular products such as chia, quinoa and cinnamon.

Fruit puree pieces available in cubes, strings, sticks, leather and macaroni shapes.

BakeSafe® fruit Puree Pieces

Our BakeSafe® fruit puree pieces are developed by Mateks R&D Team for the bakery industry. Their cube shape and natural coating agents allow the fruit pieces to be dispersed homogeneously in the final bakery product.

Thanks to its customized recipe for the bakery industry, it does not lose flavor, structure, or color at high temperatures. With its rich product range, BakeSafe® fruit puree pieces offer a variety of flavors to meet the needs of all manufacturers in the industry.

Available cube options are 3-5 mm, 5-8 mm and 8-10 mm.

PRODUCT RANGE

Infused fruits

Our infused products are obtained by sweetening fruits using apple juice concentrate or sugar and drying them. Infused fruits are dried at low temperatures in custom-designed ovens; hence preserving the original taste, color, vitamin, mineral and other nutritional values of the fruit.

Our products are produced using fresh and IQF fruits obtained from reliable suppliers which process delicately grown fruits in Turkey.

Infused fruits have a form closer to the fresh fruits with soft and juicy mouthfeel while boosting the high nutrient contents just like dried fruits.

Available size options are chunk, whole, slice and segment.

Natural Dried fruits

Natural dried fruits are dried in specially designed ovens at low temperatures without using any preservatives. Thus, the original taste, color, vitamins, minerals and nutritional components of the fruit are preserved.

Only fruit itself!

Available size options are chunk, whole, slice and segment.

ORGANIC PRODUCTS

Mateks has great control over all the organic production chain, from the fields to the production with years of experience sourcing delicious organic dried fruits globally.

Since the beginning, we have devoted ourselves to introduce qualified products by growing diverse organic produce adding new and trendy categories. We have taken pride in bringing JAS, EU, TR and NOP certified organic products into the European, Japanese and U.S. markets as well as other major world markets.

From strong and collaborative relationships with our suppliers, we have built a trustworthy reputation as a company that cares and carries quality organic production. We are determined to become the name you trust to be your solution partner.

We're here to meet your demands, please contact us with any inquiries related to fruit ranges and availability regarding organic products.

The organic production option depends on the availability of the fruit.

SOLUTION PARTNER

SUSTAINABILITY

We do our part to protect the nature while transforming its delicious fruits into delicious products

Here at Mateks, our sustainability approach starts with reducing our carbon and water footprint throughout all our processes from field to fork, and continues with developing our tech and products in line with this principle.

In the scope of our sustainable business model, Mateks prioritizes the most efficient combination of organic and inorganic resources at all steps of production.

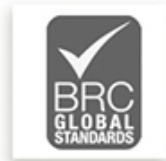

As Mateks, we set and implement
SMART
goals in our sustainability journey
